

Purpose-built venues
for exceptional
meeting experiences

Toronto | Montréal | Calgary

Purpose-built for immersive, high-impact meetings

Lumi Global's Experience venues are purpose-built to support the meetings that matter. Designed for seamless engagement, our venues provide an environment where technology enhances participation. Unlike traditional event spaces, our Lumi Experience venues are designed to deliver world-class, technology-enabled solutions for professional and reliable meetings. Elevate your AGMs, corporate events, town halls, member meetings, and investor meetings at our state-of-the-art facilities in Calgary, Toronto, and Montréal. With integrated technology and flexible spaces, our venues deliver exceptional in-room and virtual experiences, ensuring your attendees remain engaged and connected.

Why host your event at a Lumi Experience venue?

An immersive experience for in-room and virtual attendees:

- Effortless hybrid integration: Ensure a seamless connection between in-room and virtual attendees.
- Prime locations: Situated in key business districts for accessibility and prestige.
- Fully equipped spaces: Integrated AV technology throughout for a professional and engaging experience.
- Expert support: Onsite technical team to manage every aspect of your event.
- Sustainable and modern: Energy-efficient venues designed with sustainability in mind.

Versatile meeting spaces

Each venue is thoughtfully designed with a variety of meeting spaces to suit your needs, all equipped with high-quality audio-visual technology for seamless presentations and hybrid meetings.

Main meeting room

- Accommodates up to 100/110 attendees with clear sightlines to presentations.
- Expansive LED display wall for impactful visuals.
- Multiple audience-facing and speaker-facing display screens.
- Wireless microphones and speaker support.

Boardroom

- Premium 26-seater boardroom with floor-to-ceiling views.
- Dual 4K display screens for presentations and video conferencing.
- Integrated AV system supporting Teams, Zoom, and WebEx.
- Professional surround sound system.

Lounge and foyer

- A relaxed networking space with customizable display screens.
- Wrap-around city views, creating a memorable setting.
- Configurable lighting and comfortable seating for informal discussions.

Control room

- Operated by in-house technicians managing displays, lighting, and live feeds.
- Provides full technical support for seamless hybrid meeting execution.

Additional rooms

- Press room: Ideal for media engagements, briefings, and interviews. Accommodates up to 24 attendees.
- Green room: A comfortable space for presenters to prepare before speaking.
- Small meeting room: Designed for intimate business discussions.

Designed for a seamless event experience

All Lumi Experience venues offer:

- Integrated audio-visual solutions throughout.
- Flexible seating and room configurations.
- Professional support for smooth event execution.
- High-speed connectivity for in-person and remote participants.

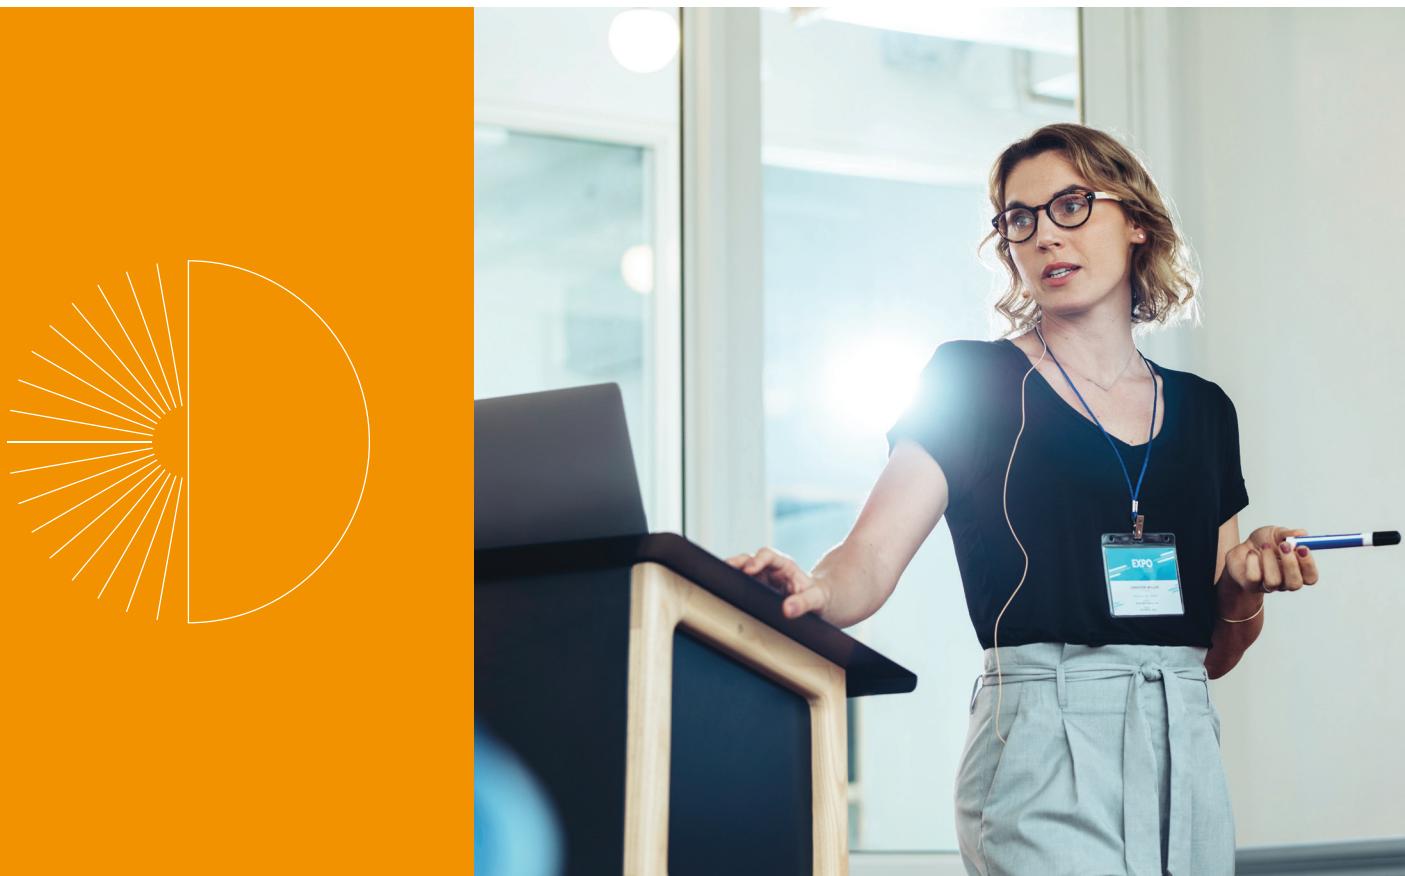

Integrated participant engagement

For meetings requiring a fully interactive experience, our venues offer optional access to 100 pre-configured tablets, enabling

seamless engagement through the Lumi Platform. These devices provide participants with a streamlined way to vote, ask questions, and access meeting materials in real-time, ensuring a connected and dynamic event.

Make every meeting an experience

At Lumi Experience venues, we take care of the technology and logistics so you can focus on delivering a successful event. Let us help you create a seamless and engaging experience for your attendees, no matter where they are.

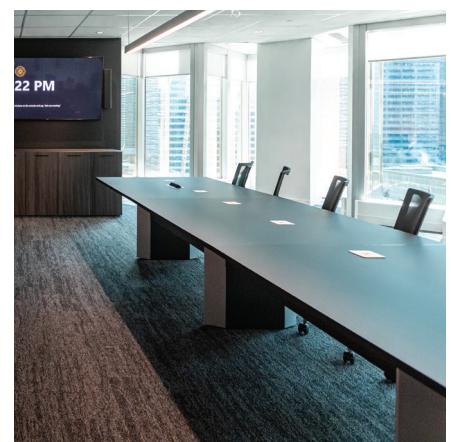

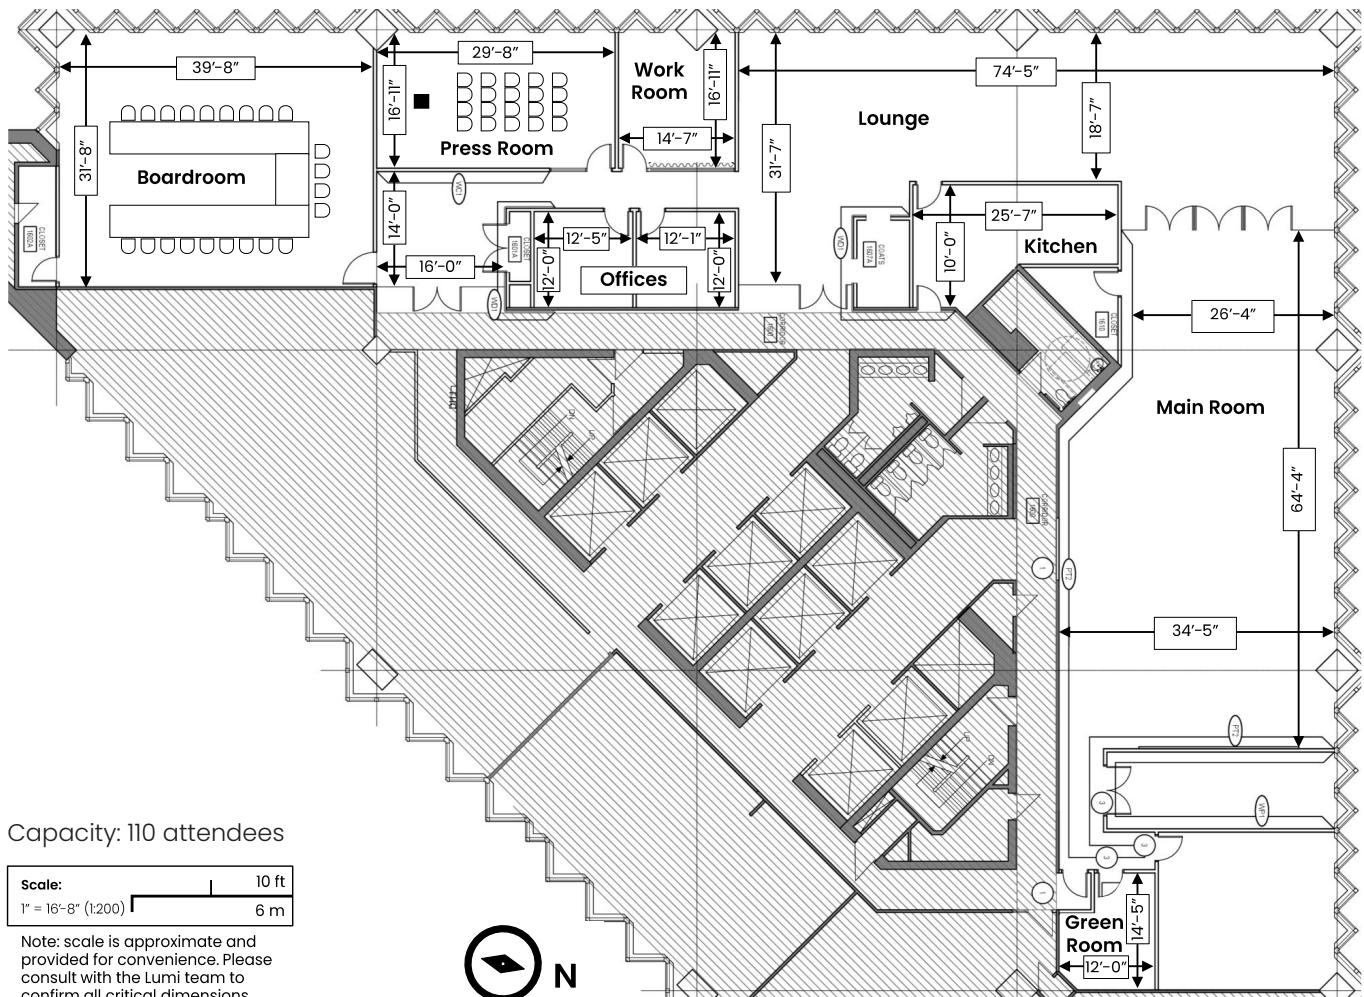

Why purpose-built matters for high-stakes meetings

While hotel venues are designed to accommodate a wide range of events, Lumi Experience is purpose-built for high-stakes meetings where production quality, hybrid delivery and execution certainly matter.

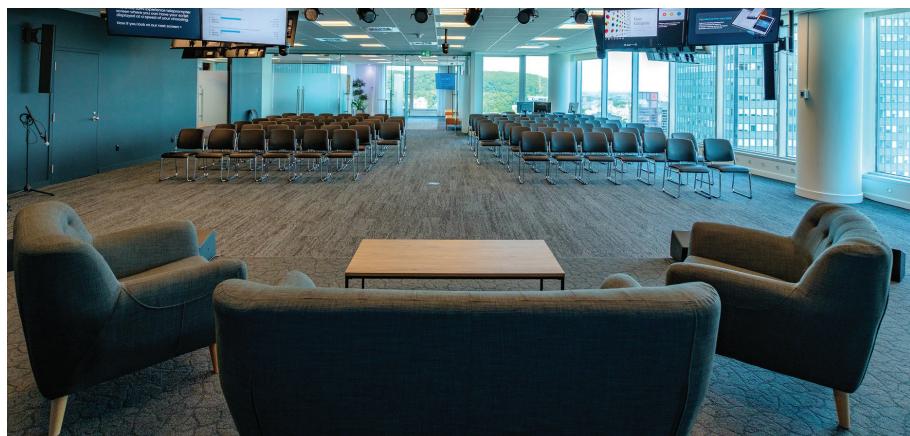

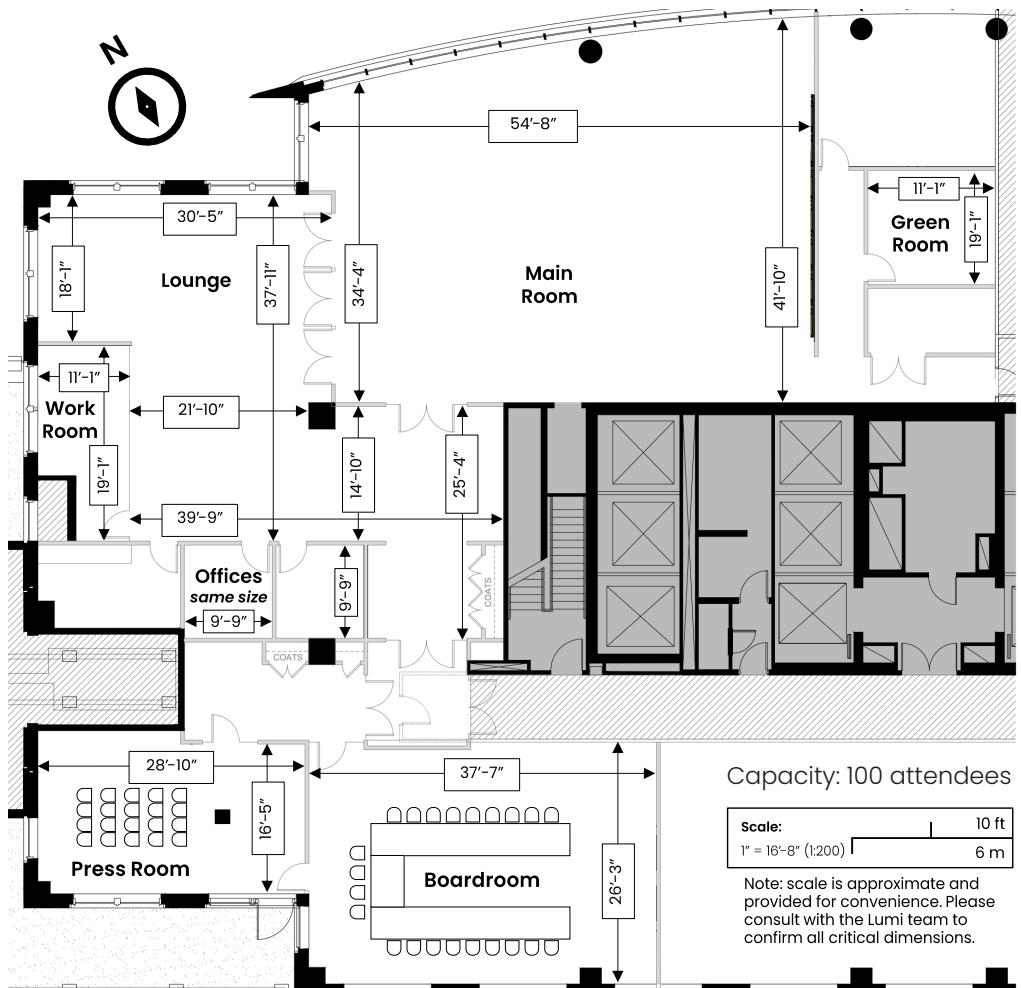

The table below outlines how this focus translates into lower risk, smoother delivery, and a more controlled, professional experience from start to finish.

Category	Lumi Experience	Hotel Conference Space
Purpose & Design	Purpose-built for investor meetings, presentations, and hybrid events	Multi-purpose rooms designed for general meetings and banquets
AV & Production	Integrated professional AV, lighting, cameras, and control room	Basic in-house AV; advanced production requires rentals
Hybrid Capabilities	Hybrid-first by design; seamless in-room and remote experience	Hybrid added via third-party vendors; often fragmented
Execution Risk	Single, integrated ecosystem with experienced staff	Multiple vendors increase coordination and failure points
Event Flow & Space	Configurable spaces for plenary sessions, breakouts, and 1:1 meetings	Rooms often separated and less adaptable
Content Capture	High-quality recording built into the workflow	Recording quality depends on rented equipment and crews
Professional Perception	Studio-grade environment signals seriousness and credibility	Professional but generic; venue rarely differentiates
Cost Transparency	Clear, bundled pricing with fewer add-ons	Lower base cost but frequent AV and labor add-ons
Flexible Catering	Work with our preferred caterers or we can work with a vendor of your choice	Typically limited to the in-house caterer with minimum spend requirements
